

Service provider of recombinant proteins

U-PROTEIN EXPRESS BV WILL ATTEND THE PROTEIN AND ANTIBODY ENGINEERING SUMMIT (PEGS) EUROPE

Utrecht, the Netherlands, October 25th 2017 – This year, U-Protein Express will be present at the PEGS Europe, the largest European event covering all aspects of protein and antibody engineering. Within 3 weeks, we will travel to Lisbon, Portugal and attend the PEGS Europe from Wednesday the 15th to Friday the 17th of November.

U-Protein Express is a dedicated service provider that offers fast and large-scale production of (mammalian) recombinant proteins and antibodies for research and pre-clinical applications. In addition, we work cooperatively with ImmunoPrecise Antibodies and QVQ to offer several custom antibody engineering services.

We hope to see you there!
