

Press release

U-Protein Express will be attending the BIO International Convention

Utrecht, The Netherlands, June 8th 2017 – For the first time, U-Protein Express will be present at the BIO international convention. Within two weeks, we will travel to San Diego to attend the world largest biotech event, taking place June 19-22.

U-Protein Express offers fast and large scale production of (mammalian) recombinant proteins and antibodies for research and pre-clinical applications. We will attend the Convention to discover new opportunities and partner with companies who can benefit from our services.

We hope to see you in San Diego!

For more information please contact Tessa Hemrika MSc at t.hemrika@u-proteinexpress.com or visit our website <http://www.U-ProteinExpress.com>

More information about the BIO international convention can be found on the [BIO website](#).
